

*Product Code:* **UL846269**

*Product Description:* **Presses (non-hydraulic) for metalworking**

*World Trade (2023):* **1.35 Billion €**

This ExportPlanning Product Code represents the aggregate of the Combined Nomenclature codes shown in the left column of the following table. In order to provide an overview of the aggregation criteria followed, in the column "Description" are also reported similar categories to that of the products included in this ExportPlanning Product Code. Column "Weight %", also reported the percentage weight of each code of Combined Nomenclature with respect to aggregation considered. **This weight is determined by taking the structure of imports of the European Union.**

#### CHAPTER 84 - NUCLEAR REACTORS, BOILERS, MACHINERY AND MECHANICAL APPLIANCES; PARTS THEREOF

CATEGORIES: Machine tools (including presses) for working metal by forging, hammering or die forging (excluding rolling mills); machine tools (including presses, slitting lines and cut-to-length lines) for working metal by bending, folding, straightening, flattening, shearing, punching, notching or nibbling (excluding draw-benches); presses for working metal or metal carbides, not specified above

Code	Weight %	Description
		-Hot forming machines for forging, die forging (including presses) and hot hammers
		-Bending, folding, straightening or flattening machines (including press brakes) for flat products
		-Slitting lines, cut-to-length lines and other shearing machines (excluding presses) for flat products, other than combined punching and shearing machines
		-Punching, notching or nibbling machines (excluding presses) for flat products including combined punching and shearing machines
		-Machines for working tube, pipe, hollow section and bar (excluding presses)
		-Cold metal working presses

**CHAPTER 84 - NUCLEAR REACTORS, BOILERS, MACHINERY AND MECHANICAL APPLIANCES; PARTS THEREOF**

CATEGORIES: Machine tools (including presses) for working metal by forging, hammering or die forging (excluding rolling mills); machine tools (including presses, slitting lines and cut-to-length lines) for working metal by bending, folding, straightening, flattening, shearing, punching, notching or nibbling (excluding draw-benches); presses for working metal or metal carbides, not specified above

<b>Code</b>	<b>Weight %</b>	<b>Description</b>
